
Exersize Solutions Of Distributed Operating System By P.k.sinha

Completed with chapter summaries, end-of-chapter exercises, and bibliography, Distributed Operating Systems concludes with a set of case studies that... Various technologies can be used to build distributed operating systems: file systems (e.g. NFS, Samba, XFS), communication protocols (e.g. FTP, SMTP) The book deals with building networks that use the protocols of the TCP / IP stack and network operating systems from Microsoft, Novell and Linux. The book covers building networks that use the TCP/IP stack protocols and network operating systems from Microsoft, Novell, and Linux
